

PEACE MUMO

Data Analyst | Python & Statistics | Business Intelligence & Automation

Email: peacemumo107@gmail.com

GitHub: <https://github.com/flitz123>

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in **data cleaning, statistical analysis, and business intelligence**. Skilled in using Python and analytical tools to transform raw data into actionable insights. Strong ability to identify trends, build dashboards, and automate data workflows to support decision-making. Experienced working in remote environments delivering data-driven solutions.

TECHNICAL SKILLS

Data Analysis & Statistics:

Data cleaning, exploratory data analysis (EDA), descriptive statistics, trend analysis, data interpretation

Programming:

Python (Pandas, NumPy, Scipy), scripting for automation

Data Visualization & BI:

Power BI, Tableau, Excel dashboards, reporting, Python (Matplotlib, Seaborn)

Data Handling:

Data collection, transformation, validation, reporting, loading

Databases:

MySQL, MongoDB, PostgreSQL, JSON

Tools:

Excel (advanced), GitHub, Jupyter Notebook, VS Code, Supabase

Other:

Data storytelling, reporting, business insights, remote collaboration

PROFESSIONAL EXPERIENCE

Python Developer & Data Analyst (Remote / Freelance)

March 2024 – Present

- Performed **data cleaning and preprocessing** on structured and unstructured datasets using Python (Pandas, NumPy).
 - Conducted **exploratory data analysis (EDA)** to identify trends, patterns, and anomalies.
 - Developed dashboards and reports using **Power BI, Tableau, and Excel** to communicate insights clearly.
 - Automated repetitive data processes, reducing manual work and improving efficiency.
 - Generated actionable insights to support **business decisions and performance improvement**.
 - Collaborated with clients to understand requirements and deliver **data-driven solutions**.
-

Data Consultant – WebSharp

May 2025 – Present

- Built automated workflows for **data collection, analysis, and reporting**.
 - Analyzed datasets to uncover **key business insights and performance metrics**.
 - Transformed raw data into structured formats for easier analysis and visualization.
 - Delivered reports that supported **strategic planning and decision-making**.
-

Social Media & Website Manager

Dec 2023 – Jan 2025

- Tracked and analyzed **campaign performance metrics** (engagement, traffic, conversions).
 - Maintained datasets for **sales and user behavior analysis**.
 - Supported marketing decisions using **data insights and reporting dashboards**.
-

PROJECT HIGHLIGHTS

Sales & Performance Analysis

- Analyzed sales and engagement data to identify trends and recommend improvements.

Data Cleaning & Transformation

- Cleaned and standardized messy datasets to improve data quality and usability.

Dashboard Development

- Built interactive dashboards in Power BI and Tableau for business reporting.

Automation Scripts

- Developed Python scripts to automate data extraction, cleaning, and reporting workflows.
-

EDUCATION

Bachelor of Science in Information Technology

Diploma in Business Information Technology

TRAINING & CERTIFICATIONS

- Python Programming for Data Analysis & Automation
 - Business Intelligence & Data Visualization (Power BI, Tableau)
 - MongoDB Python Developer Path
 - Web Scraping & Data Collection with Python
-

ADDITIONAL STRENGTHS

- Strong analytical and problem-solving skills
 - Ability to translate data into **clear business insights**
 - Attention to detail and data accuracy
 - Effective communication of technical findings to non-technical stakeholders
 - Experience working independently in remote environments
-
